Authentic Twenty Minute Fish Tan

Why tan your fish skins before mounting?

- Retains skin markings
- Keeps scales from lifting
- Dries faster once mounted
- Helps paint stick better
- Quicker turn-around time

Easy to use:

Skin fish

Scrape meat from skin

Mix tanning solution: 5 dry ounces of tanning powder in 1 gallon water

Soak skin in tanning for 20 minutes

Rinse; Mount; Dry

(This amount is enough to tan 2 six-pound Large Mouth Bass)

Availability:

6 lb	\$ 36.00
12 lb	\$ 72.00
24 lbs	\$144.00
